MORE FOR THE GRAND JURY.

Tempe Has Another Case to Be Considered by That Body.

Tempe is doing its share toward supplying material for the grand jury to work upon. Two victims have been within the last ten days. One is the Mexican who stole 110 pairs of blankets from a car, and the other is E. L. McGowan, who was yesterday

held under \$200 bond to answer a felony charge.

McGowan is the man who interfered in a fight a couple of weeks ago between two of the participants with a rock. He was sent up for ten days on that score and was released from jail Monday morning. In Phoenix he met A. C. Camps, who has been working here. The two spent the day together and drank a little too much. Coming home on the evening train on Monday, McGowan grabbed a \$5 bill from the hand of Mr. Camps. The bill was divided between them, McGowan holding the larger half of it. Mr. Camps demanded the rest of the bill, but it was not forthcoming, and upon the pretense of repairing the damage to the money McGowan succeeded in getting the other part. He then put the whole bill in his pocket and refused to part with it. A fight followed, but resulted in little other than a few bruises for the parties concerned, but later one Mr. Camps had McGowan arrested. He had a hearing yesterday afternoon, and while he told an entirely different story from that told by Camps, it was one that did not sound right to the justice and he was bound over.

There was another case before the justice yesterday that attracted considerable attention. Sunday, Antonio Soza and Rogues Montijo engaged in an altercation in East Tempe. They disturbed the neighbors much more than each other, and late in the evening the former was arrested on a misdemeanor charge. He had a hearing Monday, but pleaded not guilty and demanded a jury trial. The trial came up yesterday before the following jurors: George H. Archibald, T. G. Corbridge, William Penn, C. J. Turner, G. R. Finch and Charles Waterhouse. Three of these, however, were excused and the trial really took place before the other three. There was sufficient evidence to convince the jury of the guilt of the man in question, but upon the ground that Montijo was equally guilty and had not been arrested they found a verdict of not guilty in the case at hand and Mr. Soza was discharged.

MESA

BACK FROM THE NORTH.

Will Amos and family returned from a few months' visit in Oregon, at the home of his wife. They report a very delightful time while away. The hot weather here was outwitted and they came back with the roses once more blooming on their cheeks. While away they visited the fair at Portland and enjoyed immensely the work of mechanics and the invention and developments that they saw there. They found Arizona there in the government department and say that a great deal of interest centers around the exhibits of the Tonto dam. On their return they remained on the coast in California for a time and Mr. Amos invested in some property at Long Beach.

W. H. WALLACE RETURNS.

W. H. Wallace who left Mesa about one month ago to attend the Irrigation Congress at Portland has returned. He visited with his brother in Los Angeles, and then went direct to Portland and attended the Irrigation Congress, and the fair and returned stopped.

Let go or die. That's the alternative of the shipwrecked man with the money bag. A great many people have a like alternative before them. Business men come to a point where the doctor tells them that they must "let go or die."

Probably the advised sea voyage or mountain air. There's an obstinate cough that won't be shaken off. The lungs are weak and perhaps bleeding. There is emaciation and other symptoms of disease, which if unskillfully or improperly treated terminate in consumption.

Thousands of men and women in a like condition have found complete healing by the use of Dr. Pierce's Golden Medical Discovery.

It gives me pleasure to send you this testimonial so that some other poor sufferer may be saved, as I was, by Dr. Pierce's Golden Medical Discovery. I was a sufferer from Dr. Pierce's Golden Medical Discovery. I was a sufferer from Dr. Pierce's Golden Medical Discovery.

ping again in California. He says the congress is a success and a great deal of good was accomplished by the deliberations there. The fair is being well attended but the eastern people are using the rates not only to see the fair but the entire west. The rates from the east are but a few cents more than from the Salt River valley, and those people have the privilege of coming as far south as Los Angeles and returning either route back, but the most of them are returning by the way of Salt Lake City. Mr. Wallace feels fine after his trip but still thinks that this country is good enough for him.
